

verot.net - Hire me!

[hire_me.htm](#)

I am available for hire, for any Internet related work. I am based in France right now, but can work for any country in the world. Are you interested? [Contact me!](#)

What can I do for you?

I can do everything related to websites, and Internet in general. I can conceive and build a website, redesign an existing site, develop an internet application. I work with PHP and MySQL, and I design sites following official standards, using the latest XHTML/CSS techniques (I love CSS). You can check my [portfolio](#), and a detail of my [competences](#). I am also a graphic designer, have a look [there](#) to see some artwork.

Why hire me?

Well, you don't have to believe me, but:

- I do great quality work. I am always proud of my work.
- I pay attention to details. I can't stand unfinished work.
- I am an experienced programmer, and I like to code.
- I am pro-active, and reactive.
- I know a hell of a lot about the web and Internet.
- I have a long experience of working with my clients.
- I am not too expensive to hire, and you always get your money's worth.

In brief, always produce very high quality work, and establish great relationships with my clients. [Try me!](#)

Coming soon...Â

I am setting up [my own company](#) in France, and we will deliver all web related work, from design to high-end coding.Â
